Subject: Testimonial for Successful Technology Transformation

Dear Mr. Ramani,

I am pleased to provide this testimonial acknowledging the exceptional support and expertise provided by Techgyan in our recent technology transformation initiative.

Following our acquisition of Kamachi Industries, ensuring uninterrupted business continuity was our top priority. We were operating with legacy systems that required a complete refresh of hardware, applications, and operating systems. The traditional on-premise approach would have been time-consuming and complex.

Techgyan stepped in as our trusted technology partner and delivered a seamless migration of our email systems to Microsoft 365 and our ERP and Oracle database to Microsoft Azure. This strategic move not only ensured business continuity but also provided us with the agility and scalability needed to support our growth.

The professionalism, technical depth, and responsiveness of the Techgyan team—led by you—were instrumental in the success of this transformation. We now operate on a secure, modern, and flexible infrastructure that empowers our teams and enhances operational efficiency.

We value our partnership with Techgyan and look forward to continued collaboration in the future.

Warm regards,

Manoj Malpani  
Kamachi Industries Ltd.
